

# 1 Sensemaking

|         |        |                                             |   |   |
|---------|--------|---------------------------------------------|---|---|
| 5:01.2  | 88-188 | shift from robot1 head to robot2 head       | + | - |
| 5:00.7  | 82-188 | shift from robot2 head to robot1 ceiling    | + | - |
| 5:00.30 | 81-188 | shift from robot1 ceiling to robot2 ceiling | + | - |
| 5:01.8  | 81-188 | shift from robot1 ceiling to robot2 head    | + | - |
| 5:44.7  | 81-188 | shift from robot1 ceiling to robot2 head    | + | - |
| 5:49.8  | 81-188 | shift from robot1 ceiling to robot2 head    | + | - |

operator gaze shifts

output:  
synched operator  
and robot data

## 2 Annotation

annotate

output:  
annotated  
gaze shifts

## 3 Pattern Analysis

zero-shot pattern  
induction

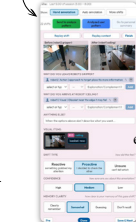

review  
& revise

output:  
reviewed  
patterns

## 4 Auto-Annotation

pattern-guided  
annotation

review  
& revise

output:  
reviewed auto-  
annotated gaze shifts

## 5 Summary

reflective synthesis

review & reflect
